NPRC Weapon Safety Agreement:

1. Treat all firearms as if they are loaded until you personally have visually and physically confirmed that the weapon is unloaded and safe.
2. When rendering any firearm safe, the first step is to keep the muzzle pointed in a safe direction. A safe direction is generally at the ground.
3. Typically, the second and subsequent steps are as follows: place the weapon on safe, remove the source of feed, lock the bolt or action open, visually check the chamber for a loaded round (bullet) and remove same if present.
4. Never point a firearm at anything you are not willing and justified to shoot.
5. Always practice muzzle discipline and awareness and always be mindful of where your weapon's muzzle is pointed.
6. Keep your finger off the trigger of any firearm until you intend to shoot and after you are finished shooting.
7. Check beyond your target before you shoot to ensure innocent persons are not endangered and that there is adequate backstop to stop any rounds you fire.
8. Do not allow others to handle your weapon(s) in an unsafe manner. You agree to cause any unsafe gun handling to stop immediately, and to notify event staff of any safety violations.
9. All weapons shall be unloaded until you are on the firing line and instructed to load.
10. When not on the firing line your rifle must have a visible chamber blocking device inserted and your pistol must be holstered.
